

# COMMON TANSY

*Tanacetum vulgare*

## PERENNIAL LIFECYCLE & TREATMENT TIMING

[mda.state.mn.us/weedcontrol](http://mda.state.mn.us/weedcontrol)

### HAND PULL

Remove roots and rhizomes of small infestations.

### DIG ROOT

Remove roots and rhizomes of small infestations.

### MOW

Mow before seed set to prevent dispersal.

### FOLIAR SPRAY

Spray leaves until plant reaches bud stage.

### GRAZING

Graze with goats or sheep through bud stage.

Monitoring and repeated management is necessary for long term control of established infestations.
