

# MULTIFLORA ROSE

*Rosa multiflora*

## PERENNIAL LIFECYCLE & TREATMENT TIMING

[mda.state.mn.us/weedcontrol](http://mda.state.mn.us/weedcontrol)

- 
**ROOT WRENCH**  
 Attach root wrench to plant and pull roots out.
- 
**HERBICIDE**  
 Spray leaves at any stage. Spray lower 18" of bark during leaf out.
- 
**CUT AND TREAT**  
 Cut shrub at the base and spray outer rings.
- 
**FORESTRY MOW**  
 Cut, grind and clear vegetation. Follow up with other treatments.
- 
**FIRE**  
 Use weed torches and prescribed fire with other methods.
- 
**GRAZING**  
 Goats or sheep eat foliage & bark.
- 
**Monitoring and repeated management is necessary for long term control of established infestations.**
